Work Experience

Frex

Mar - May 2025, Gurgaon

Flutter Developer

- Helped build the MVP of Frexpay, a cross-border payments application using stablecoins for low-cost international transfers, working closely with the founding team.
- Developed product UI using FlutterFlow and collaborated with backend developers to integrate APIs and validate end-to-end payment workflows.
- Gained hands-on exposure to Saber on-ramp, Bridge off-ramp, remittance systems, and blockchain-based settlement infrastructure.

Education

Manipal University, Jaipur

Aug 2025 – May 2027

Master's in Computer Applications - 8.65

Christ University, Delhi NCR

Aug 2022 – May 2025

Bachelor of Computer Applications - 8.57

Projects

TrackStack – Full Stack Internship CRM ↗

- Built a full-stack internship CRM enabling users to track applications through structured status workflows and ownership-scoped CRUD operations.
- Designed secure backend architecture with JWT authentication, bcrypt password hashing, rate limiting, Zod validation, and Mongoose schema validation.
- Developed analytics APIs using MongoDB aggregation pipelines with Redis caching, filtering, search, pagination, and database indexing for optimized performance.

Tech Stack: React, Node.js, Express.js, MongoDB, Redis, JWT

DevLog – AI-Powered Developer Progress Automation Platform ↗

- Built an event-driven automation platform that transforms daily development activity into structured progress updates.
- Designed a webhook-driven architecture that captures GitHub commits, stores development activity in PostgreSQL, and generates AI-powered summaries through scheduled background jobs.
- Implemented a Discord-based approval workflow where AI-generated summaries are reviewed before publication, creating an automated developer journaling system.

Tech Stack: Node.js, Express.js, PostgreSQL (Neon), Discord.js, Gemini AI, Render, GitHub Webhooks

Skills

Languages: JavaScript, Dart, Java

Backend: Node.js, Express.js, REST APIs, Zod

Database & Caching: PostgreSQL, Neon, MongoDB, Redis, Firebase Firestore

Frontend / Mobile: Flutter, FlutterFlow, React

Authentication & Security: JWT, bcrypt, Rate Limiting

Tools: Git, GitHub, Render, Postman, Figma

Certificates and Award

JLPT N5 ↗

- Certified in JLPT N5, demonstrating fundamental proficiency in Japanese language and basic everyday communication

Foundations of User Experience (UX) Design ↗

- Completed Google's Foundations of UX Design course, gaining exposure to design thinking, wireframing, and usability evaluation

Smt. Vasanti R Pai PG Merit Scholarship/Fellowship (2025-26) - Manipal University

- Awarded a 60% tuition scholarship based on undergraduate CGPA for academic excellence.
